

SABEEBA AHMED

Aspiring Data Scientist | Data Analytics | Machine Learning

☎ +966598914490 ✉ sasasa6697@gmail.com 🌐 GitHub 📍 Jeddah, Saudi Arabia

PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented aspiring Data Analyst with strong skills in **SQL, Python, Excel, Power BI, Power Query, and DAX**. Experienced in building interactive dashboards and performing data cleaning, transformation, and visualization to generate actionable insights. Passionate about turning raw data into meaningful business intelligence. Currently pursuing an M.S.c with hands-on experience in analytics, automation, and dashboard development.

EDUCATION

Amity University | Noida

M.Sc. in Data Science

2024 - 2026

CGPA : 8.7/10

• **Currently Pursuing**

Arab Open University | Jeddah

Bachelor of Science (B.Sc. IT)

2016 - 2022

CGPA : 3/4

Al-Wurood International School

High School

2002 - 2015

CGPA : 8/10

PROJECTS

Renewable Energy Benchmarking Dashboard (Power BI) | 🌐 Github

2026

Data Analyst | Power BI Developer

- Built an interactive **Power BI dashboard** analyzing renewable energy trends across countries (2018–2025).
- Performed **data cleaning and transformation using Power Query**.
- Created KPI cards, trend analysis, and Top 5 country rankings using **DAX measures**.
- Designed comparative visualizations to analyze global vs regional renewable energy performance.

Technologies / Tools Used : Excel, Power Query, Power BI, Data Visualization

Smoking Health Risk Analysis Dashboard (Power BI) | 🌐 Github

2026

Data Analyst | Power BI Developer

- Designed an interactive **Smoking Health Risk Analysis Dashboard** to analyze smoking habits and associated health risks.
- Created dynamic KPI cards displaying patient count, average age (**53.7 years**), and average BMI (**30.0**).
- Created 3+ interactive visualizations for smoking status distribution, gender-based smoking patterns, cholesterol & hypertension risk, and smoking duration vs. daily cigarette intake.
- Developed calculated measures using **DAX** for dynamic analysis.

Technologies / Tools Used : Power BI, Data Modelling, Data Visualization, DAX

Amazon Invoice PDF Extractor (Python) | 🌐 Github

Jan 2025 - Feb 2025

Data Analyst | Python Automation

- Developed an automated PDF invoice data extraction system using Python.
- Extracted key invoice fields including invoice number, order ID, purchase date, seller information, taxes, and total amount.
- Integrated **pdfplumber**, **pytesseract**, **pyzbar**, and **pandas** to support scanned invoices.

Technologies / Tools Used : Python, pdfplumber, pytesseract, pyzbar, Pandas

SKILLS

Databases :

MongoDB

Frameworks & Libraries :

React, Express, Node.js, Tailwind CSS, Pandas

Languages :

English, Arabic, Urdu

Programming Languages :

JavaScript, Python, SQL

Data Analytics & BI :

Excel, Power BI, Power Query, DAX, Data Visualization, Data Analysis, Pivot Tables

Soft Skills :

Excellent communicator, Decision Making, Problem Solving, Critical Thinking

Tools & Platforms :

GitHub, Postman, Figma, Linux, Jupyter Notebook
